

Installing SparkRef on Windows 7

SparkRef should work the same on both the 32-bit version and the 64-bit version of Windows 7. SparkRef is a 32-bit application.

1. Log on to the machine as an administrator
2. Download the SparkRef installer for windows from www.oregonlibraries.net/spark. The JRE version is recommended.
3. Extract the installer then right click and choose '**run as administrator**'.
4. Click through the installer. When you are prompted to choose a directory, browse to **C:\Users\Public**.
5. Create a desktop icon if you want.
6. Test SparkRef by running it and logging in (ask us if you need access to a test account).
7. Test again when you aren't logged in as an administrator.
